DETAILED ACTION

Response to Amendment

1. Amendments to claims 1 and 12, filed on July 21, 2003, have been entered in the above-identified application.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Election/Restrictions

3. This application is in condition for allowance except for the presence of claims 13 - 15 to an invention non-elected with traverse in Paper No. 5. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter: while the prior art of record teach a magnetic recording medium comprising a

glass substrate, a multilayered underlayer and a circumferentially magnetized magnetic layer (*Paragraph 5 of the Office Action mailed February 20, 2003 – Paper No. 24*), the prior art of record fails to teach or render obvious controlling the ratio of the perpendicular coercivity to horizontal coercivity to within applicants' claimed ratio.

Conclusion

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chen et al. (U.S. Patent No. 6,461,750) teach a magnetic recording medium with high horizontal coercivity wherein the ratio of the perpendicular to horizontal magnetization is controlled to be less than 0.5 or "even less than about 0.3" (*col. 6, lines 1 - 8*). However, Chen et al. ('750) fail to disclose a similar structure as applicants, nor to provide sufficient motivation for one of ordinary skill in the art to reduce the claimed coercivity ratio to applicants' claimed range.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin M Bernatz whose telephone number is (703) 308-1737. The examiner can normally be reached on M-F, 9:00 AM - 6:00 PM.
